GIFTS WITH LOVE AND PRINTS IN COLOURS

COMPLIANCE AND QUALITY COMMITMENT

Our catalogue presents a wide range of products that were sourced and manufactured with special care to ensure the quality, safety, and compliance with European requirements, as well as with various product specific standards.

Declaration of Conformity documents and laboratory test reports are available as an assurance of product compliance with applicable European regulations.

The displayed icons are graphically designed therefore may differ from legal icons.
No rights may be derived from this information.

GO GREEN

Natural, sustainable and eco-friendly promotional gifts

The **GO GREEN** collection helps you achieve your promotional goals in a more sustainable way.

Our products indicated with **"GO GREEN"** icon provide greener alternatives to traditional items. They are fully or partially made of natural, sustainable or recycled materials or provide a substitute to a normally disposable everyday item.

be Creative

The **BE CREATIVE** brand consists of special products, developed and hand-picked with creativity and special customisation in mind.
We use various natural and geometrical patterns as well as animals in vivid colours to illustrate the wide range of customisation possibilities, highlighting an essential feature of the **BE CREATIVE** brand.

Some of the **BE CREATIVE** items even give you the opportunity to mix and match the colour and material of the product parts, or design your custom shape to make them truly unique. These products are custom made in our in-house production facilities or assembled from our stock of parts, ensuring short lead-times.

UNIQUE

The **BE CREATIVE** Collection offers a high degree of customisation. These special products ensure that your message or image is always presented in style.

INNOVATIVE

BE CREATIVE products are manufactured and imprinted utilising the latest technologies. Imprints are almost entirely made with digital technologies, ensuring colourful and high-resolution prints.
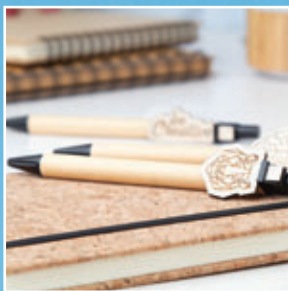

be Creative

ACCESSIBLE

The **BE CREATIVE** Collection is manufactured, assembled or printed in Europe. This ensures short delivery time and low minimum order quantity, even for entirely custom-made products. Utilising modern manufacturing and printing technologies warrants the competitive price level of the **BE CREATIVE** Collection.

This showcase only represents a small selection of the **BE CREATIVE** products; you can find many more throughout the following chapters of the catalogue.

INTRODUCING CREABOX CUSTOM GIFT BOX PROGRAM

MADE IN EU

Accompany your printed promotional gift with a custom full-colour printed box.

We offer two types of digital printed boxes for selected items:

Corrugated cardboard boxes for bulky and fragile items.

Single layer carboard boxes for smaller products.

Custom CreaBox boxes are available for products indicated with the following icon.

Made in EU.
From 100 pcs.

For more information on production time and prices, please, contact us!

Keep up with modern technology and be prepared for every situation. Whether you listen to music, take photos or manage your business, we have all the essential accessories for your mobile and laptop – from smart watches through bluetooth speakers and selfie sticks to powerbanks. Wherever you go use the gadgets that suit your goals and style best!

PRINTING TECHNOLOGIES

Choosing the best gift - from our wide product collection - for your promotional needs is only half of the success equation. The appearance of your logo or message carries equal importance. In order to ensure the realisation of your brand image, we provide various printing technologies, ranging from traditional methods to state of the art digital technologies.

The following guide aims to give you a brief overview of our labelling techniques and to help you pick the best for your selected item.

Colours AP1222
Printing: T1(8C), DT(FC)

▸ Max print colours. (FC=full colour)
▸ Printing price category.
▸ Printing technology.

P Pad printing		**S** Screen printing		**T** Transfer printing	
DT Digital transfer		**UV** UV Led printing		**SU** Sublimation	
C Ceramic and XP printing		**CP** Ceramic pad print		**DO** Epoxy doming	
DG Digital paper insert		**VF** Vision Film printing		**E** Engraving	
RE Rainbow engraving		**O** Embossing		**BR** Embroidery	
VS Vinyl sticker		**RS** Rotary screen printing		**WPC** Transfer priniting on white ceramics	

FP Price includes printing with indicated technology. Excluding setup charge.

P PAD PRINTING

Pad printing is the most popular, traditional ink-based labelling method. This technology uses a silicone pad to transfer ink onto an item with fine details and high accuracy, applicable to a wide range of materials. Pad printing allows labelling curved surfaces.

S SCREEN PRINTING

Screen printing is a traditional ink-based labelling process, for flat or flattenable products, with high durability and colour accuracy. During the screen printing process ink is directly pressed on the product's surface through a gauze, then fixed with heat treatment.

T TRANSFER PRINTING

Transfer printing is based on traditional screen printing, however, instead of being directly screen printed onto an item, the design is printed onto transfer paper, then applied with a heat press. Transfer printing is applicable to a wide range of products and holds several advantages over screen printing.

DT DIGITAL TRANSFER

Digital transfer printing is a modern, full-colour alternative to traditional transfer printing. The design is printed in photo quality onto transfer paper with a special digital printer, then applied to the product with a heat press. Our digital transfer technology carries no limitation in size or shape of imprints.

UV UV LED PRINTING

UV LED printing is a full-colour, digital labelling process utilising UV-cured inks. Logos are directly printed on the product's surface in high-resolution, resulting in instant photo quality imprints.

SU SUBLIMATION PRINTING

Sublimation printing is a full-colour, digital labelling technique with photo quality. Designs are printed with special ink on a transfer paper, then heat-pressed onto the product's surface. Sublimation is only applicable to light coloured polyester and sublimation coated products.

C CERAMIC PRINTING

Ceramic printing is used to label mugs, glasses and certain metal items using special ceramic paints fired at high temperature. The label is applied to the product similarly to transfer printing, then fired in a furnace.

CP CERAMIC PAD PRINTING

Ceramic pad printing is an inexpensive labelling process for ceramic and glass products using special inks. It is suitable for logos up to 2 colours in moderate size.

DO EPOXY DOMING

Epoxy doming is a unique printing technology, using full-colour printed stickers covered with 2 component resin. As a result, the treated sticker will have a 3-dimensional look. Epoxy domed logos can be produced in custom shapes and are resistant to UV rays.

DG DIGITAL PRINTING

Digital printing is used to imprint paper products and paper inserts in photo quality. Paper inserts can be produced in various sizes and shapes.

VF VISION FILM PRINTING

Vision Film printing is a special printing technique for labelling sunglasses lenses. During the labelling process, a digitally printed and perforated film is applied enabling a high degree of customisation.

E ENGRAVING

Engraving utilises lasers to mark a product's surface. The surface of the product practically burns in the process to develop the logo. Even small logos can be printed very accurately. Engraving is applicable to metal, wooden, glass and certain plastic products.

RE RAINBOW ENGRAVING

Rainbow engraving is a special laser engraving technology, utilising different wavelength laser beams to achieve coloured imprints on metal items, without the use of inks or chemicals.

O EMBOSSING

Embossing is an elegant process that changes the surface of the material that has been embossed, through forming a 3D impression. This impression is achieved by pressing a specially-made die onto the product's surface.

BR EMBROIDERY

Embroidery is used to label textile products, resulting in durable and high-quality imprints, by an automatic embroidery machine which applies thread through needle stitches. Pantone matching is not achievable, due to limited thread colours.

VS VINYL STICKER

Vinyl stickers are digitally printed full-colour, self-adhesive stickers applicable to various, otherwise hard to print, products. Vinyl sticker logos can be produced in various sizes and shapes.

RS ROTARY SCREEN PRINTING

Rotary screen printing is a special kind of screen printing for labelling bottles. The cylindrical screen printing machine rotates the product parallel with the gauze, resulting in continuous prints throughout the surface of the product.

WPC CERAMIC WHITE PRINITING

Ceramic white printing is a special full colour printing technology for white ceramic products, which is based on ceramic printing.

COLOUR PRINT

Colour Print Products allow full-colour printing large areas, or even the complete surface, of the product. Large and vivid-coloured imprints are mostly achieved by modern digital printing technologies, such as epoxy doming, UV LED, sublimation and vision film printing.

LIGHT UP YOUR LOGO

Light Up Your Logo Products contain LED lights, hidden inside their housing, resulting in a special backlit-effect of your engraved logo.

SPECIAL ENGRAVING

Special Engraving Products are specially designed for a unique laser engraved appearance. Thanks to the special dual-layer coating on the product's surface, laser engraved logos appear in colour or with mirror-effect.

GO GREEN

Natural, sustainable and eco-friendly promotional gifts.

CREABOX

Custom CreaBox boxes are available for products indicated with the following icon.
